eTarget is a powerful audience selection tool that works with personal interest information collected from **YesMail** members. The features of this tool include:

Audience Selection

- Select an audience by searching for a category/characteristic
- Thesaurus to recommend related categories/characteristics on search results
- Shopping cart system to build and review audience
- De-duplicate or create intersections of audience segments
- Maintain running totals of counts and audience price
- Spread a target audience size over selected categories by flat or weighted percentages
- Save selected audiences
- Edit saved audiences

Program Delivery

- Collects basic descriptive information about the program
- Group programs by campaigns
- Allows for creation of message content in variety of formats (Text, HTML, AOL HTML)
- Preview message before sending
- Collects delivery timing information
- Allows for specification of multiple action tracking rules (used by **eTrack**)
- Collects payment information by credit card or house account
